ALG Vacations is committed to providing you with resources that will help improve your business and increase your earning potential.

The best way to do that is to offer you as much choice and flexibility as possible when it comes to servicing your current clients while growing your customer base.

ALGVACATIONS™

MORE CONTENT

Travelogue allows you to offer your clients everything from a traditional catalog, and so much more!

Full-Page Listing

With the new digital format, every property now has a full-page listing. This comes with large header images, the option for several room images, and a space for video. It also includes more content about the resort as well as a full amenity grid.

Image Carousels

There are spaces on the page that allow for multiple images to be housed in a convenient carousel. This is a great opportunity for the resort to show various room options as well as to highlight activities and amenities within and around the property.

Video Feature

The addition of video allows you to give clients a full 360° view of all a property has to offer!

Expanded Amenity Grid

The new amenity grid is a consistent element on each page that lets users quickly identify and compare exactly what they are looking for in a dream vacation destination.
